Consent Agenda

Items shown on the Consent Agenda will be taken up and voted on as a group in one of the first items of business of each Commission meeting. Items may be removed from the Consent Agenda for discussion on the Regular Agenda at the request of any Commissioner prior to the meeting.

Orders and Resolutions

1

[3573]

Res TL - 19046

Resolution approving issuance of charter-party carrier certificates pursuant to Section 5374(b) of the Public Utilities Code.

Outcome Approved

Yes: (Brown, Kennedy, Lynch, Peevey, Wood)

No: (none)

Abstain: (none)

Absent: (none)

2

[3574]

Res ALJ 176-3137

Ratification of preliminary determination of category for proceedings initiated by application. The preliminary determinations are pursuant to Article 2.5, Rules 4 and 6.1 of the Commission's Rules of Practice and Procedure.

Outcome Approved

Yes: (Brown, Kennedy, Lynch, Peevey, Wood)

No: (none)

Abstain: (none)

Absent: (none)

3 (Rev.)

[3552]

R02-06-041 - Order Instituting Rulemaking to require California natural gas and electric utilities to preserve interstate pipeline capacity to California.

This decision grants in part and denies in part the motion to accept a late-filed notice of intent (NOI) to claim compensation by The Utility Reform Network (TURN). This decision denies TURN's concurrent request for an award of \$32,810.41 related to D04-01-047 because TURN did not timely file its NOI, and its motion comes after the proceeding was closed and more than 17 months after the due date for the NOI. However, the decision grants compensation in the amount of \$12,846.25 for TURN's work that made a substantial contribution to D02-07-037 and D03-04-061 because no prehearing conference was held relating to the issues addressed in these decisions. This proceeding is closed.

(Comr Lynch - ALJ Brown)

Agenda 3135, Item 9 6/9/2004 (Staff);

Agenda 3136, Item 4 7/8/2004 (Kennedy)

4 (Rev.)
[3591]

R02-10-001 - Order Instituting Rulemaking on the establishment of a public purpose program surcharge pursuant to Assembly Bill (AB) 1002.

This decision implements Assembly Bill 1002, establishing a natural gas surcharge to fund public purpose programs. This decision addresses matters including customer exemptions, formulas for calculating surcharge rates, accrual of interest on surcharge revenues, and accounting matters. The decision approves, subject to modifications, Pacific Gas and Electric Company's Advice Letter 2440-G, identifying surcharge balancing accounts. This decision also initiates a public interest research and development (R&D) program for gas that appoints the California Energy Commission as administrator, establishes criteria for R&D projects, and sets R&D funding at an initial amount of \$12 million for 2004, with the potential for R&D budget increases in later years. This proceeding is closed. (Comr Lynch - ALJ DeBerry)

Agenda 3136, Item 52 7/8/2004 (Lynch)

[3684]

R01-08-028 - Conference with Legal Counsel - Application for Rehearing

Disposition of Applications for Rehearing of Decision D03-12-060 filed by Women's Energy Matters (WEM), Residential Energy Service Companies' United Effort (RESCUE), and joint application of Consortium for Energy Efficiency, Inc. et al. R01-08-028 examines the Commission's future energy efficiency policies, administration and programs. D03-12-060 is an interim opinion adopting funding for the 2004-2005 energy efficiency programs and studies. D03-12-060 was modified in part by D04-02-059.

101

[3769]

R00-02-004 - Conference with Legal Counsel - Application for Rehearing

Disposes of the motions for stay and/or applications for rehearing of Decision D04-05-057, which adopts General Order G.O. 168, Rules Governing Telecommunications Consumer Protection. Four applications for rehearing were filed by Nextel California, Inc (Nextel), AT&T Wireless et al.(Joint Carriers), and the Wireline Group. The Wireline Group filed two applications, one solely concerning issues of timing and implementation, and one on substantive legal issues. Rehearing applicants allege that the provisions and the adoption of G.O. 168 are preempted, unconstitutional, and in violation of state law. Applicants also assert that the time allowed for implementation is impracticable and not supported by the record. Nextel, Joint Carriers, and the Wireline Group also each filed motions to stay D04-05-057.

9

[3713]

A04-02-030 - PacifiCorp and 2677588 Washington LLC.

This order authorizes PacifiCorp to sell and transfer its interest in the Skookumchuck dam in the State of Washington to a subsidiary of TransAlta Corporation (TransAlta). The sole purpose of the Skookumchuck dam is to meet cooling water requirements of the nearby Centralia Steam Electric Generating Plant (Centralia Power Plant), which with Commission approval was purchased four years ago by a subsidiary of TransAlta. The Centralia Power Plant serves customers in the State of Washington. Energy customers of PacifiCorp in California (representing about 2% of PacifiCorp's business) are expected to benefit from the sale in that income from the dam operations is minimal and the application forecasts a \$200,000 reduction in California revenue requirements. PacifiCorp will receive its net book value of the assets being transferred, with no appreciable gain or loss. This proceeding is closed.

(Comr Kennedy - ALJ Walker)

Outcome Held (9/2/04, Regular Agenda. Further consideration)

64a ALTERNATE TO ITEM 3366

[3806]

This decision resolves Pacific Gas & Electric Company's (PG&E) System Safety and Reliability Balancing Account. Pursuant to the provisions of Public Utilities Code Section 368, which was added to the Code by AB 1890, the electric industry deregulation bill, PG&E was allowed an increase in base revenues equal to the consumer price index plus 2% for the years 1997 and 1998. The additional funds thus acquired were to be spent recovering costs incurred from enhancement of system safety and reliability. The Commission approved PG&E's cost recovery plan in 1996 and laid out in detail the steps PG&E was required to follow in recording the costs in D96-12-077 and D98-12-094. PG&E seeks approval for approximately \$120 million in costs incurred pursuant to Section 368 and our prior decisions. The Office of Ratepayer Advocates (ORA) and The Utility Reform Network (TURN) have filed objections. This decision allows most costs sought by PG&E. The decision disallows applications for automated meter readers and meter reader trucks as too remote and insignificant in their effects on system safety and reliability. The decision also orders PG&E to file a Catastrophic Event Memorandum Account application to seek recovery of approximately \$29 million in storm and flood-related costs included in this application. This proceeding is closed.

Telecommunication Orders**81**

[2636]

R01-09-001 - Order Instituting Rulemaking on the Commission's own motion to assess and revise the new regulatory framework for Pacific Bell (Pacific) and Verizon California Incorporated.

I01-09-002 - Related matters. This proposed decision addresses Phase 2B audit issues. The proposed decision sustains most of the findings of an audit of Pacific's intrastate financial results for the period 1997-1999 that were considered during Phase 2B. Despite the audit adjustments, this decision, read in combination with the findings reached by the Commission in Phase 2A of this proceeding, does not increase Pacific's earnings to a level requiring it to make refunds to its ratepayers.

[2637]

ALTERNATE TO ITEM 2636

I01-09-002 - Related matters. This alternate resolves Phase 2B audit issues. This alternate, read in combination with the findings in D04-02-063, does not increase Pacific's earnings to a level requiring it to make refunds to its ratepayers. The alternate proposed decision accepts Pacific's claim of lawyer-client confidentiality concerning certain information, but prohibits the booking of contingent liability accruals that rely on that information. The alternate proposed decision denies Pacific's request to recover audit costs because of its failure to cooperate with the audit. The alternate orders corrections to the regulatory accounts concerning the booking of Local Number Portability costs and reducing the levels of authorized "Cash Working Capital." The alternate also orders Pacific to make other error-correcting adjustments, with the timing of the adjustments consistent with GAAP (which was previously adopted by this Commission to guide telecommunications accounting).

[3199]

I02-06-003 - Investigation on the Commission's own motion into the operations, practices, and conduct of Pacific Bell Wireless LLC dba Cingular Wireless and related entities (collectively Cingular) to determine whether Cingular has violated the laws, rules and regulations of this State in its sale of cellular telephone equipment and service and its collection of an early termination fee and other penalties from customers.

This modified decision finds that Cingular's corporate practice and policy from January 2000 to April 31, 2002 violated (1) Pub.Util.Code §451 and D95-04-028 because it allowed no trial of its wireless service and prohibited early termination of wireless service contracts unless the customer paid an early termination fee of \$150 or more, even though testing wireless service by using the phone is the best way for a customer to ascertain whether the service meets his or her needs, and (2) violated §§451, 702 and 2896 and D95-04-028 because it failed to disclose known network problems during 2001 and, in spite of these problems, continued to prohibit refunds/returns and require early termination fees for early cancellation of wireless service contracts. Decision orders a penalty of \$12,140,000 and requires reparations to customers. This modified decision addresses the issues raised by the Commission's Consumer Protection and Safety Division, Utility Consumers Action Network, and Cingular in their appeals to the Presiding Officer's Decision filed October 9, 2003. This proceeding is closed.

[3815]

ALTERNATE TO ITEM 3199

PROPOSED ORDER OF COMMISSIONER KENNEDY DIFFERENT FROM PRESIDING OFFICER'S DECISION - This decision finds that Cingular Wireless committed one violation of Section 451 of the Public Utilities Code by unreasonably including a substantial early termination fee in its long-term contracts without including a grace period in which a customer could try out a new cellular telephone. The decision orders Cingular to refund early termination fees to (1) all customers who paid such fees within 14 days of entering a contract in the period from January 1, 2000 to May 1, 2002 and (b) all customers who paid such fees during the period February 1, 2001 through April 30, 2001. The decision also fines Cingular \$890,000, equal to \$10,000 per day for each day from February 1, 2001 through April 30, 2001, a period in which Cingular knowingly failed to disclose serious network problems and continued to aggressively market its services. This decision is final. (Comr Kennedy)

A01-02-035, A02-02-031, A02-02-032, A02-02-034, A02-03-002 - Related matters. This decision adopts revised monthly recurring unbundled network element (UNE) rates for several UNEs that Pacific Bell Telephone Company dba SBC-California sells to competitive local exchange carriers. The UNEs for which revised monthly recurring rates are adopted are loops (including 2-wire, DS-1 and DS-3), switching, dedicated transport, signaling system 7 (SS7) links, and the DS-3 entrance facility without equipment. The rates in today's order replace interim rates for loops and switching that were set in D02-05-042 and replace rates for other UNEs originally adopted in D99-11-050. This order adopts a statewide average 2-wire loop rate of \$12.92 and a flat rate for switching usage of \$2.64 per port. These rates result in a UNE-Platform rate of \$16.90 per month. The Commission sets these rates based on the average of the results of the models proposed by SBC-CA and the HAI Model, Version 5.3, proposed by AT&T Communications of California and WorldCom, Inc. An average of the two competing models is used based on the finding that both models are flawed. These proceedings are closed.

R03-08-018 - Order Instituting Rulemaking to review policies concerning intrastate carrier access charges.

This order resolves several policy questions with regard to intrastate access charges, their levels and impact on California long distance markets. The Commission opened this rulemaking in response to the petition of AT&T Communications of California, Inc. (AT&T). The term "access charges" refers to charges imposed by local exchange carriers (LECs) such as Pacific Bell Telephone Company on interexchange carriers (IEC) such as AT&T for using the LEC's local exchange network. Interexchange carriers use this switched access to originate and terminate long distance calls to the vast majority of California residential and business customers.

[3733]

A03-10-006 - Southern California Water Company (SCWC).

This decision approves a comprehensive settlement agreement entered into by SCWC and the Commission's Office of Ratepayer Advocates that resolves all issues in SCWC's general rate case application for Region II, its Metropolitan District. The impact of the settlement on the average monthly bill for potable water (ME-1 tariff) is approximately \$2.12 in 2004, \$3.31 in 2005 and \$3.62 in 2006. Among other things, SCWC will implement a six-year phase-in of increases in the rate for recycled water (ME-3 tariff) to return it to 70% of the potable water rate by 2009.
